GB President, Sri Nilamadhava Bhoi, Sub-Collector, Chatrapur, presiding over the Construction Committee Meeting inside the Office of the Principal. Present are the Principal, Dr. Prabina Kumar Nanda, Tahasildar of Ganjam Tahasil, Sri Arun Kumar Nayak and members of Construction Committee. Dt. 26.11.21

Principal Dr. Prabina Kumar Nanda greets the newly appointed Vice Chancellor of Berhampur University Prof. Geetanjali Dash – Dt. 17.5.22

The governance of the Institution is in tune with its vision and mission and it follows the policy of decentralization.

The institution adheres to the Five T of the Govt. of Odisha - Team Work, Technology, Transparency, Transformation and Time Limit.

A new academic session brings with it new challenges and new responsibilities. Yet, we march ahead with renewed confidence, exploring fresh avenues to put our perspectives in place. So far, the Institution has witnessed multiple growth in terms of student strength and development of student support systems like career counselling, alumni involvement, value education, awareness programmes and so on. Our students continue to excel in different fields including the Inter-College and Inter-University competitions, paving the way for others to follow the route of success.

All along, quality has been the benchmark of our academic programmes and we aim at creating human resources competent enough to face the challenges of an ever-evolving social system. We look forward to the support of all our stakeholders in the effort to excel and in strengthening our resolve to move forward with success in all our endeavors.

(Dr. Prabina Kumar Nanda)

Editorial

The persistent effort of our institution has been to provide quality education to the students through proper implementation of the curriculum. We believe in a learner-centric approach aided by technology and our strategy of personal intervention is aimed at bringing cataclysmic changes to a student's life including career building. In order to achieve this goal, our team of dedicated teachers provide guidance in terms of mentoring, providing study notes and question bank, effective class engagement and periodic assessment.

IQAC has played a key role in coordinating quality related activities including the adoption and dissemination of best practices. It has been able to build an organized methodology of documentation and improved internal communication. Aside from acting as a dynamic system for quality changes, it also provides a sound basis for decision making to improve institutional functioning. The forthcoming goals of IQAC are to set parameters of excellence for the integral units of the institution, preparation of AQAR and development of a vibrant, technology-driven academic culture.

(Dr. Smaranika Hota)
Coordinator, IQAC
